

Joon Suk Huh

Department of Computer Science
University of Wisconsin–Madison

Email: joon@cs.wisc.edu
Home: <https://joon-huh.github.io/>

Education

[†] Indicates expected

2021 – 2026 [†] Ph.D., Computer Science, University of Wisconsin–Madison

Advisor: Kirthivasan Kandasamy

2023 – 2024 M.A., Mathematics, University of Wisconsin–Madison

2017 – 2019 M.S., Physics, Northwestern University

Advisor: Hyejin Youn (Kellogg School of Business)

2012 – 2019 B.S., Physics, Gwangju Institute of Science and Technology

(Gap years in 2012 – 2014 due to military service.)

Experiences

2025 – 2025 Applied Scientist Intern, Amazon.com, Inc. (Jul. – Nov.)

2021 – 2026 Research and Teaching Assistant, University of Wisconsin–Madison.

2020 – 2021 Research Associate, Seoul National University Hospital.

Selected Publications

Google Scholar Profile: <https://scholar.google.com/citations?user=oXYG5-QAAAAJ>

- [1] **Huh, J. S.** Efficient Adaptive Data Analysis over Dense Distributions, *Preprint*, 2026.
- [2] **Huh, J. S.**, Kandasamy, K. Strategy-robust Online Learning in Contextual Pricing, *ALT 2026*.
- [3] Chen, K., **Huh, J. S.**, Kandasamy, K. Learning to Price Homogeneous Data, *NeurIPS 2024*.
- [4] **Huh, J. S.**, Kandasamy, K. Nash Incentive-compatible Online Mechanism Learning via Weakly Differentially Private Online Learning, *ICML 2024*.
- [5] **Huh, J. S.**, Vitercik, E., Kandasamy, K. Bandit Profit-maximization for Targeted Marketing, *ACM EC 2024*, Major Revision in Operations Research.

Talks

- [1] **Huh, J. S.** Strategy-robust Online Learning in Contextual Pricing, The 37th International Conference on Algorithmic Learning Theory (ALT), Toronto, Feb. 2026.

- [2] **Huh, J. S.** Strategy-robust Online Learning in Contextual Pricing, IFDS Ideas Forum, Madison, Feb. 2026.
- [3] **Huh, J. S.** Incentive-compatible Sequential Mechanisms with Strategic Non-myopic agents, Machine Learning Lunch Meeting, Madison, Nov. 2024.
- [4] **Huh, J. S.** Bandit Profit-maximization for Targeted Marketing, The 25th ACM Conference on Economics and Computation (EC), New Haven, July. 2024.

Professional Activities

- Conference reviewer, ICML '25, '26, NeurIPS '25, AAAI '26, ICLR '26.
- Journal reviewer, International Game Theory Review.

Selected Honours and Awards

2017	Excellent Undergraduate Thesis Award
2016	Qualcomm-GIST Innovation Award
2016	The Grand Prize, KISTI National Supercomputing Competition
2016	The National Scholarship for Science and Engineering
2012	GIST Academic Excellence Scholarship
2010	Google CS Connect Award, Intel ISEF
